Subject: Re: Followup on Dimock testing

Charlotte -- Here is the statement we issued on April 6 when we released the latest round of sampling results:

EPA has completed and shared with residents and Pennsylvania state officials the second set of sampling at 20 private drinking water wells in Dimock, Pa. This set of sampling did not show levels of contaminants that would give EPA reason to take immediate action. EPA remains committed to providing Dimock residents with the best available data and information on the quality of drinking water as expeditiously as possible.

For more information on the sampling results, visit: <http://www.epa.gov/aboutepa/states/pa.html>

Hi, Roy:
Thanks for this.

I'm seeing the chart of sampling results, but is there a report or statement of the findings?

Subject: Followup on Dimock testing

Hi, Roy:

I've seen a bunch of news stories about the results of EPA's tests of the water in Dimock, Pa., where residents say wells were polluted by fracking, but I can't locate any official results on the EPA Region 3 website. Can you send me a link, or a confirmation of the findings I've seen reported?

Thank you,
Charlotte
